

```
int main()
{
    FILE *fp;
    char buf[BUFSIZ + 1];
    memset(buf, '\0', sizeof(buf));

    if( (fp = popen("uname -a", "r")) != NULL ) {
        if( (fread(buf, sizeof(char), BUFSIZ, fp)) > 0) {
            printf("Output was:-\n%s\n", buf);
        }
        pclose(fp);
        exit(EXIT_SUCCESS);
    }
    exit(EXIT_FAILURE);
}
```
