

```
void print_msg(char *ptr_a[], int n)
{
    int i;
    for (i = 0; i < n; i++)
        printf(" %s", ptr_a[i]);

    puts(".");
}

int main()
{
    char *message[9] =
        { "Dennis", "Ritchie", "designed",
          "the", "C", "language",
          "in", "the", "1970s"};
    print_msg(message, 9);
    return 0;
}
```
