

```
1  #include <time.h>
2  #include <stdio.h>
3
4  int main(void)
5  {
6      time_t t = time(NULL); /* long int */
7
8      printf("epoch time:\t%ld\n",t);
9      printf("calendar time:\t%s", ctime(&t));
10
11     return 0;
12 }
```
