

```
1 #include "hello.h"
2 int main(int argc, char *argv[]){
3     if (argc != 2)
4         printf ("Usage: %s needs an argument.\n", argv[0]);
5     else
6         hi(argv[1]);
7     return 0;
8 }
```
