

```
1 strcpy(string1, string2) /* copy string2 into string1 */
2 strcat(string1, string2) /* concatenate string2 onto
3                             the end of string1 */
4 length = strlen(string)  /* get the length of a string */
5 strcmp(string1, string2) /* 0 if string1 equals string2,
6                             otherwise nonzero */
```
