

# Pthreads

## Example 1

```
void *hello(void *arg)
{
    int i;
    for( i=0; i<20; i++ ){
        puts("Thread says hi!");
        sleep(1);
    }
    return NULL;
}

int main(void)
{
    pthread_t t;
    if( pthread_create(&t, NULL, hello, NULL) ){}

    if( pthread_join(t, NULL) ){}
    exit(0);
}
```
