

```
1  #include "hello.h"
2
3  int main(int argc, char *argv[])
4  {
5      if (argc != 2)
6          printf ("Usage: %s needs an argument.\n", argv[0]);
7      else
8          hi(argv[1]);
9      return 0;
10 }
```
