

```
1  #include<stdio.h>
2
3  int main(void)
4  {
5      int *p = 5; /* should be (int *)5 */
6
7      printf(" p = %p\n", p); /* p = 0x5 */
8      printf("&p = %p\n", &p); /* &p = 0x7ffda48a2068 */
9      printf("*p = %c\n", *p); /* Invalid memory access */
10     return 0;
11 }
```
