

```
1  #include<stdio.h>
2
3  void print_msg(char *ptr_a[], int n) {
4      int i;
5      for (i = 0; i < n; i++)
6          printf(" %s", ptr_a[i]);
7
8      printf(".\n");
9  }
10
11 int main() {
12     char *message[9] =
13         {"Dennis", "Ritchie", "designed",
14          "the", "C", "language",
15          "in", "the", "1970s"};
16     print_msg(message, 9);
17     return 0;
18 }
```
