```
#include<stdio.h>
   #define SQR(x) (x * x)
   #define N 5
  int main(void)
       int i = 0:
       for (i = 0; i < N; ++i) {
10
            printf("x = %d, SQR(x) = %d\n", i+1, SQR(i+1));
11
12
13
       return 0;
14
```
