```
#include<stdio.h>
  #define SQR(x) (x * x)
   #define N 5
   int main(void)
       int i = 0:
       for (i = 0; i < N; ++i) {
10
            printf("x = %d, SQR(x) = %d \setminus n", i+1, SQR(i+1));
11
       return 0:
14
```
