```
#include<stdio.h>
int main(){
     int i = 5:
3
     printf("i = %d; ". i);
5
     int *p = \&i;
6
     printf("*p = %d\n", *p);
8
                /* i = 6 */
     *p = 6:
     printf("i = %d; ", i);
10
     printf("*p = %d\n", *p);
11
12
     return 0;
13
14
```
