```
#include<stdio.h>
   int main(void)
     int a[] = \{9,8,0.1\}:
     int i = 0:
     while (a[i] != 0)
       ++i:
10
     printf("ZERO at a[%d].\n", i);
11
12
     return 0;
13
```
