```
#include<stdio.h>
   int main(){
2
      int i = 5:
3
      printf("i = %d; ", i);
      int *p = \&i;
6
      printf("*p = %d \setminus n", *p);
      *p = 6:
                  /* i = 6 */
      printf("i = %d; ", i);
10
      printf("*p = %d \setminus n", *p);
11
12
      return 0;
13
14
```
