```
#include <string.h>
#include <stdio.h>
  char line[100]; /* Line we are looking at */
  int main()
    printf("Enter a line: ");
     fgets(line, sizeof(line), stdin);
10
    printf("The length of the line is: %d\n", strlen(line));
     return 0;
12
```
