```
strcpv(string1, string2) /* copv string2 into string1 */
strcat(string1, string2) /* concatenate string2 onto
                              the end of string1 */
4 length = strlen(string) /* get the length of a string */
5 strcmp(string1, string2) /* 0 if string1 equals string2,
                              otherwise nonzero */
```
