```c
/* parrot.c -- using fgets() and fputs() */
#include <stdio.h>
#define MAXLINE 20
int main(void)
{
    char line[MAXLINE];

    while (fgets(line, MAXLINE, stdin) != NULL &&
            line[0] != '\n')
        fputs(line, stdout);
    return 0;
}
```
