```c
1  #include <string.h>
2  #include <stdio.h>
3
4  char line[100]; /* Line we are looking at */
5
6  int main()
7  {
8    printf("Enter a line: ");
9    fgets(line, sizeof(line), stdin);
10
11   printf("The length of the line is: %d\n", strlen(line));
12   return 0;
13 }
```
